With nearly a century of experience serving the healthcare industry, Encompass has earned a reputation for quality, cost-effective products, reliably delivered by a helpful and knowledgeable team.

Better care starts with safety and comfort.

“This is not your common linen cart...”

We recently moved to a state of the art linen system called “Revolution.” This is not the common linen cart most of us are familiar with. The advanced system includes a customized bed linen cart stocked with top quality products that work together to enhance the healthcare environment with no fold linens, all engineered to increase the efficiency of caregivers and laundry workers, and optimize resident comfort.

You don’t have to have that institutional feel—scratchy or over starched—and after experimenting with the linen myself I admit it’s of a quality that I would buy for my own home.”

THE PERFECT BED

by MIP®

The Revolution Linen System Perfect Bed

Healthcare facilities count on Encompass to deliver premier quality products that provide optimal resident comfort and maximize operating efficiencies.

We've developed the **Perfect Bed System** which includes: no-fold linens—engineered to increase caregiver and laundry worker efficiency and optimize resident comfort, and a customizable linen cart specifically designed for the efficient handling of high performance linen.

The **Perfect Bed System** encourages reduced energy and labor costs, reduced linen usage, and improved linen life expectancy, providing overall cost savings as well as superior resident comfort.

Safety Footwear

Safety Footwear

We understand that fall prevention is extremely important to your clients and the success of your organization. Encompass Resident Safety Footwear has been the market share leader for over 25 years, providing top of the line products that help prevent falls. Our comprehensive offering includes a collection of single-tread, double-tread, all-around tread, flexible sole, hard sole, risk management and eco-friendly products focused on resident safety and comfort.

Confetti All-Around Tread

Confetti Treads by Albahealth® offer an extensive line of resident safety footwear designed specifically for client comfort and protection. The unique, all-around tread provides 360° slip-resistance while the ultra-soft fabric encourages use and compliance. Also available in other styles and easy to identify risk-management colors.

CONFETTI TREADS® SAFETY FOOTWEAR

CAT.#	TREAD	SIZE	COLOR

Terry

Terry

Terry products represent a large percentage of any facility's textile purchases, so it's important to pick the right products. Encompass makes that easier with our a broad array of sizes, weights, blends and colors for you to choose from.

Our high quality line of **Impressions** terry, available in several colors, and our **Elegance Plus** white terry towels with their distinctive 5-Cam design, all strike the right balance of comfort and durability.

Encompass' **Checkmate** terry is the perfect product when nothing but the best will do. These extra heavy, extra large retail-styled products are a perfect way to create an air of distinction and comfort.

Sky Blue Bath Towels

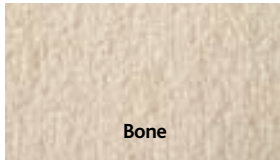

Our **Impressions Series** comes in 6 beautiful colors with an elegant dobby border to give your facility that feeling of luxury.

Pillows

The Pillow Factory® family of reusable pillows feature the **SRC®**, Soft Resilient Core, system as well as high quality fluid resistant and fluid proof covers which can be easily wiped clean for extended use. This is an ideal combination for residents in residential care.

Single-resident use, personal pillows are manufactured with the same care and quality construction. Personal pillows offer ideal softness and breathability for resident comfort and are clean and fresh for each use.

Personal

Personal pillows are optimal for resident comfort and are fresh for each resident. A special manufacturing process called garnetting creates lofty and resilient fiberfill interior layers. A breathable cover allows air to escape from the pillow for superior comfort. Personal pillows are easily configured for propping.

Select Sheeting

Colored Sheeting

At Encompass, we're proud of the versatile collection of sheeting products we offer to meet our customers' needs. From traditional, value-priced muslin and percale, to our feature-rich Encompass exclusives, our differentiated products were carefully selected to help you succeed.

Our woven sheeting line features blended, cotton rich sheets that give residents the soft, cool feel of cotton, with the durability required for institutional processing. Our top-end **Regal Touch** line features an incredibly soft twill weave produced with Egyptian cotton in a 55/45 blend. These sheets offer the ultimate combination of durability, ease of use, and comfort.

Our uniquely constructed **Infi-Knit** knit-fitted sheet possesses superior stretch in the length—right where you need it. This Encompass exclusive ensures bed-making is a breeze and our sheets stay on the bed better than traditionally constructed knits. And our innovative **Envelope design** and **Plated construction** features enhance resident comfort and ease of use.

Mattresses & Fall Prevention

Mattresses and Fall Prevention

Safe Haven

As the leader in cost-effective, clinically-proven support surfaces, Encompass is proud to offer you an entire new line of mattresses that are right for the times and more importantly, right for your budget.

Never before has prevention of skin breakdown been as important for your residents. Who better to count on in these difficult times than a trusted partner like Encompass?

Incontinent Care

Incontinent Care

Whootex UnderPad

At Encompass, we know that incontinent care is a sensitive issue that needs to be managed with high-quality products that meet the specialized needs of the incontinent resident.

Through our partnership with internationally-recognized market leader MIP, we offer a complete line of incontinent care products including underpads, adult briefs, diapers, and adult clothing protectors. Our underpads and briefs are available in a wide variety of facing fabrics, soaker weights and blends, and sizes, providing our customers with the ability to choose the perfect products for their residents.

Hampers & Bags

Hampers & Bags

Laundry collection and handling has never been easier with our selection of specially designed laundry/hamper bags to suit your every need.

Our **SafeCare™** fluid resistant laundry bags are tough for repeated use, and just as the name promises—resistant to most fluids. Our **Impervious** line are manufactured with super-durable, coated nylon fabric, and are an excellent choice for collecting wet, and/or heavily soiled items. The optional “envelope top” bags provide extra secure closure when desired.

Mesh laundry bags are designed for washing clothing and linens without removing articles from the bag. Made from durable polyester wide-weave mesh, in a variety of colors.

Our sturdy draw cord bags, are constructed of either nylon, 50/50 poly/cotton blend, or 100% cotton, with either straight or circular bottoms, and are available in a range of sizes.

Our **water soluble** bags are an environmentally responsible and hygienic solution to reducing staff contact with contaminated laundry. These bags dissolve during the laundering process and are specifically designed to isolate, transport, and clean bed linens, clothing, uniforms etc., contaminated with bacteria, infectious bodily fluids and blood-borne pathogens.

NOTE: Commercial water heat of 140 degree F (66 degrees C) or above is required to dissolve the bag and tie completely.

Make linen collection even easier in a hamper bag and easy-to-roll **hamper stand**. With a gentle push of one foot, the metal pedal raises the durable, odor-control plastic lid—providing hands-free access to the removable bag. These convenient stands move easily on four non-marking, swivel casters.

“The public spaces
Encompass created
for us are lovely...”

...and comfortable, and family members of our residents often
comment how much they appreciate the safe, beautiful environments
we provide for their loved ones.”

— *Amelia G., Home Director*

Interiors

Custom Interiors

*Encompass Interiors has been providing **Interior Design Services** for all aspects of healthcare and "aging in place" facilities for seniors, for over thirty years.*

We believe every resident, caregiver, and family member should feel safe and comfortable in today's healthcare environments. Because we design Healthcare environments exclusively, we are very conscious of the rigorous demands on product performance and durability in all "aging in place" applications.

Our detailed design solutions take into consideration the special needs of the aging population, including changes in visual acuity levels, potential glare factors, and trip hazards. We specify furniture that is ergonomically and dimensionally suited to the needs of seniors while aesthetically providing an attractive and inviting residential environment.

Throughout the years, Encompass has had the privilege to work on many types of facilities involving new construction and renovation throughout the United States.

Window Treatments

Encompass Interiors can provide any type of window treatment for your residence, including shades, blinds, curtains, and specialty treatments. With our own drapery fabrication facility, Encompass uses the appropriate material and accessories to suit every project and complement any design.

Public & Special-Use Areas

Encompass Interiors can design common areas within any long-term care residence, from skilled care to assisted living to independent living, that complement any style, whether traditional, transitional, or contemporary. Anything from Chapels to staff break rooms; formal dining areas to casual bistros; theaters and beauty shops; porches to family rooms; virtually anything your company needs.

Whatever the space, you can expect a warm and inviting atmosphere, with finishes and furniture that will meet your needs for durability, maintenance, and comfort.

Areas for Relaxation

Family Dining Rooms

Meeting and Conference Rooms

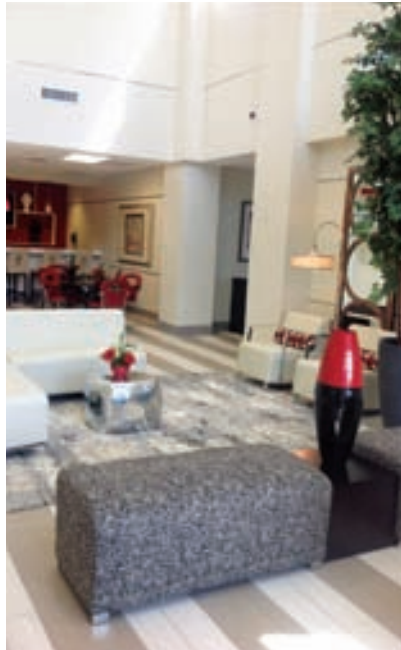

Theater and TV Rooms

Beauty Salons and Barber Shops

Dining Rooms

Public Rooms and Lobbies

Family Rooms

Libraries and Lounges

Themed Rooms

Resident Rooms

You can be sure resident rooms designed by Encompass will meet all of the durability and maintenance standards your facility needs while providing comfortable and stylish living situations that your residents and their families will appreciate.

Furniture & Fabrics

With a strong background in design for healthcare, our design team knows which finishes will be most appropriate for your residence, to provide the proper aesthetics and the longest-lasting design.

With one of the largest interior design libraries in Minnesota, we carefully select every element; from flooring to lighting, wallcoverings and paint; art, furniture and window treatments; to ensure a design that achieves the inviting environment you desire.

The large selection of finish samples in the Encompass Design Library

Aisles of interior design reference

One of the Design Library work surfaces

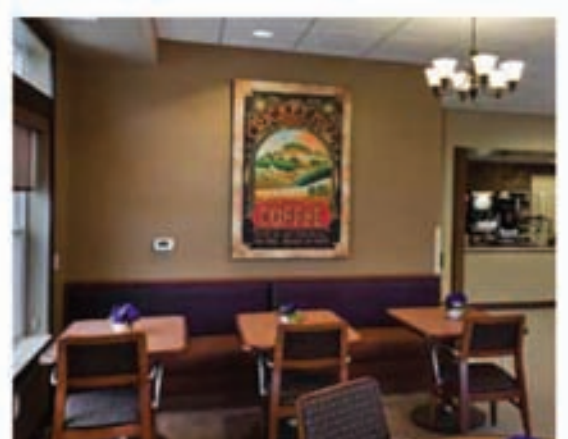

Various surface treatment samples can be collected, compared, and coordinated to design a beautiful and appropriate environment.

Artwork & Accessories

Encompass Interiors will see your project through, from start to finish. In order to create a cohesive design, we pay attention to every detail of your space, including artwork and accessories.

Artwork will be tailored to the style and aesthetic of your space. Accessories will not only help unify the design; they will give residents and visitors spaces that they can both live in and interact with.

General Washing Instructions

WASHING INSTRUCTIONS

In order to maintain the look, function, and durability of your Encompass products, the following wash instructions should be followed for the items in this catalog. The wash procedures presented here are recommended by the products' manufacturers. Following these suggested guidelines will help keep products looking better and promote a longer product life. If a particular product is not included in the following instructions, follow the instruction tag on the product itself.

REUSABLE APPAREL AND BED & BATH

General Instructions for All Products

- All new textile products should be laundered prior to use.
- Do not overload washers or dryers. To ensure thorough cleaning, washers and dryers should be loaded to allow freedom of movement for the garments.
- The following recommendations should be used as guidelines. Deviations should be made at the discretion of the laundry professional, based on the specific requirements, supplies, equipment and experience.

COLOR WASH

(Colored apparel, sheets and towels)

1. Launder high-fashion apparel and dark colors separately.
2. Do not use chlorine bleach.
3. Machine wash on warm setting. Temperatures not to exceed the following:

Apparel	120°F
Sheets/towels	160°F
4. Rinse thoroughly.
5. Tumble dry at temperatures not to exceed 250°F.
6. Remove promptly from dryer and fold or hang to help prevent wrinkling.

WHITE WASH

(White apparel, sheets and towels)

1. Machine wash on warm setting. Do not exceed 160°F.
2. Launder high-fashion apparel separately. When bleaching, follow the manufacturer's instructions.
3. Rinse thoroughly.
4. Tumble dry at hot or cotton setting. Temperature should not exceed 250°F.
5. Remove promptly from dryer and fold or hang to help prevent wrinkling.

WASH INSTRUCTIONS FOR PROFESSIONAL LABWEAR

In order to maintain the look of garments, we recommend you follow our guidelines for proper laundering. Deviations should be made at the discretion of the laundry professional, based on specific requirements, supplies, equipment and experience.

COLORS

Launder high-fashion and dark colors separately. Do not use bleach. Machine wash on a warm setting not to exceed 120°F. Rinse thoroughly. Tumble dry at temperatures not to exceed 250°F. Remove promptly from the dryer and fold or hang to help prevent wrinkling.

WHITES

Machine wash on a warm setting not to exceed 160°F. Launder high-fashion styles separately. When bleaching, follow the manufacturer's instructions. Rinse thoroughly. Tumble dry at hot or cotton setting. Temperature should not exceed 250°F. Remove promptly from dryer and fold or hang to help prevent wrinkling.

REUSABLE FLUID-RESISTANT FABRICS

Because of the repellent qualities of these fabrics, the following wash and rinse cycles are required:

OPERATIONS	TIME	LEVEL	TEMP	SUPPLIES/100 LB.
1. Flush	3 minutes	High	Cold	
2. Flush	3 minutes	High	Cold	
3. Break	7 minutes	Low	160°F	8 ounces nonionic detergent; 8 ounces alkali
4. Suds	7 minutes	Low	160°F	4 ounces nonionic detergent
5. Rinse	2 minutes	High	140°F	
6. Rinse	2 minutes	High	120°F	
7. Rinse	2 minutes	High	100°F	
8. Rinse	2 minutes	High	Cold	
9. Sour	5 minutes	Low	Cold	Sour to pH 6.0

1. A thorough rinse is essential to remove all surfactants. Residual surfactants will adversely affect the repellent properties of these fabrics.
2. Excessive use of softeners is not recommended as they may adversely affect the repellent properties of these fabrics.
3. SafeCare fabrics have inherent stain-resistant properties; therefore, bleaching should not be necessary. However, if a chlorine bleach is used, use an antichlor in the second rinse. Always ensure that no chlorine remains in the fabrics after washing and that no chlorine residue is present in the washing or drying equipment.
4. After washing, garments should be thoroughly heat dried. Repellency characteristics are enhanced through heat and pressing. Press with a cool iron.

At Encompass...

we believe every resident, caregiver, and family member should feel **SAFE and COMFORTABLE** in today's healthcare environment.

To order please call your local sales representative at **(800) 245-4636**.
